**LIFE.**

[illegible]

When scalpitis improvement would lead to proper care, we persevered with Zam-Bak. To our delight we noticed how the scalp healed up, new skin was formed, and the hair began to grow on May's head once more. Although it was such a stubborn case, her progress was steady and sure from the first. In three months' time the skin had been entirely renewed, and there is no trace of the eruption whatsoever. The treatment with Zam-Bak was most soothing and most effective. It is the finest healing balm ever discovered."

Zam-Buk is a pure healing balm suited to old and young. It is invaluable for eczema, scalp irritation, psoriasis, ulcers, "water" or "blood-blisters," sores of all kinds, ringworm, chancres, etc.

**GUARDIANS.**

**THE WORKHOUSE TUBBET CLOCK**

**A RECOMMENDATION TO CEASE**

**LIGHTING IT—AN AMUSING**

**REVELATION.**

A meeting of the above Board was held  
on Wednesday afternoon at the office, Hunsley,  
Mr. J. Bunter (chairman) presiding. There  
were also in attendance the Rev. M. J. Dillan  
(vicar-chaplain), Mr. Dickinson, Mr. Haw-  
ley, Messrs. Knight, Allison, Park, Higgin,  
Gilling, Rogers, Green, Lawton,  
Wilson, Garside, Schofield, Palmer, Wiggin,  
Wicks, with the clerk (Mr. May) and assistant  
clerk (Mr. W. W. Jones).

**WORKHOUSE TUBBET COMMITTEE.**

At a meeting of the above Committee Mr.  
Bunter reported upon his visit to the Work-  
house during the past fortnight and called  
attention to the unsatisfactory manner in which  
the children from the Workhouse at once. It  
was proposed by Mr. Bunter that Mr. Wicks  
should be asked if in his opinion the children  
remain in the Workhouse without detriment  
to their health. Seconded by Mr. Wicks.  
An amendment was proposed by Mr. Wicks  
that Mr. Bunter should be asked to visit the  
children at once. It was agreed to take into  
consideration at once the desirability  
of providing for accommodation for the  
children elsewhere than at the Workhouse.  
The Master reported that the clock grid  
already fitted up to be strong enough and  
was accordingly instructed to proceed forth-  
with with the work. A letter was received  
from Miss B. Gill stating in answer to en-  
quiry that she belonged to the Salvation Army,  
and wished to describe the same to inmates of  
any denomination. It was proposed by Father  
Dillon that Miss Gill be permitted to visit the  
inmates belonging to the Salvation Army, but  
that magistrates, priests, &c., for other inmates  
should be sent through the Master. Seconded  
by Mr. Wicks and carried unanimously. A  
letter was received from Mr. Bunter stating  
that the clock makes enquiries and advice  
as to the possibility of the factory being  
reopened as a training school. It was pro-  
posed by Father Dillon that the committee of the  
Local Government Board to the necessary de-  
parture from the provisions of the Act should  
be applied for, and subject thereto that the  
inmates should be provided for the inmates  
on Good Friday next as in previous years.  
Seconded by Mr. Wicks and carried. The  
Ladies Committee reported upon their last  
visit to the Workhouse and that the inmates  
had not so far better treated than they are.  
The Clerk reported that he had received no reply  
from Mr. T. Simpson with reference to his  
inmate. Ordered that the Clerk be asked to  
arrange for the inmates to be sent to the  
inmate. Ordered that the Clerk be recom-

needed to cease lighting the turret clock for  
the present.

Mr. Green proposed the minutes for con-  
firmation.

Mr. Hawley asked the reason why the  
Committee recommended the non-lighting of  
the workhouse turret clock.

Mr. Green said the Committee found that  
the Board of the Workhouse would not put  
the lamp back as the Home Committee  
near the Children's Homes. A child had  
fallen near the entrance and he too had been  
down by reason of the lack of light. Bothwell  
evidently could not afford the additional ex-  
pense of the lamp asked for. Another reason  
was that the non-lighting of the turret clock  
must be a saving of electricity, and for the  
present the Committee thought they would dis-  
continue the lighting. When Bothwell was  
prepared to put up an additional lamp then  
the Board could consider the re-lighting of the  
turret clock.

Mr. Hawley proposed an amendment that  
the minutes be confirmed with the exception  
of the recommendation in question. He  
thought the Board should not put up with  
their own officials of the clock. On the  
ground of cost there was no figure given to  
show that the lighting up was not a saving.  
The matter should be considered on a  
higher plane than Mr. Green placed it upon.  
As an attitude, he thought, the Board  
should not take up. They did not want  
chaos introduced into such an admirable  
institution as the workhouse was.

Mr. Green: There are 23 clocks inside.  
Mr. Hollings seconded the amendment.  
Mr. Bunter said there had been a quarrel  
between the two parties.

**always  
Welcome**

WE are always pleased for our friends to call and see our Show-rooms because by no other means can they realise so well what a marvellously varied and charmingly-beautiful selection of furniture and everything necessary for the home we have. It is better to send for our Illustrated Catalogue first, not that this is the longest of our stock

it is an exceedingly useful guide. We have had fifty years' experience of the furniture trade, and our knowledge, experience, advice, and suggestions are freely at the service of our friends, and there is surely satisfaction in dealing with a firm whose name is a synonym for integrity. Whatever we say we do, you can always depend upon our doing.

Sidibatom renders solos, and Miss Sidibatom read the connective paragraph. Mr. W. R. Ward presided at the head of the table. The following were present:—

Mr. W. M. Smith conducted the service.

Patrols and small parties seeking information were held back at every village, they carried in their hands, the patrol would be charged by a countryman behind a hedge, and distrustful information was extremely difficult to obtain, carrying a report or a soldier sometimes disappeared mysteriously, a small number of soldiers would perhaps be surprised and taken prisoner.

finalists this year for possession of the handsome trophy offered for competition by the UP

The weather during the early part of the day was showery and threatening, and anything but favourable to out-door sport. At noon, however, the leaden clouds dispersed and the sun came out brightly at intervals with the result that towards mid afternoon numerous waggoneite loads of visitors began to arrive from Alotia and Klippa, wearing their slush favours and confidently anticipating the pleasant day.

There was a fine crowd lining the ropes when the teams took the field amid high expectancy and much cheering. The show was immediately preceded made the ground and ball treacherous, and players from the kick off had difficulty in keeping their footing.

During the holidays the same two eleven had met under similar conditions—for possession of the Leeds and District Cup—Aloft on that occasion vanquishing their opponents by the narrowest of margins.

THE HUNSLT BATING QUESTION.

THE COMMITTEE'S POSITION UPHOLD.

For some time past there has been some doubt, and no small amount of argument, regarding the principle which should be followed in the valuation of the premises of the Hunslt Bating Company. It is now, however, as a result of the decision of the Committee, that the principle should be followed of valuing the premises on the basis of the value of the machinery, and not on the basis of the value of the premises themselves. This decision was arrived at after a long and careful consideration of the matter, and it is now the policy of the Committee to uphold this principle in all future valuations.

On Monday this case—Kirkby v. The Hunslt Bating Company—came for the third time before a divisional court on appeal from the decision of Mr. Tindal Aikin, the Recorder of Lincoln. The case was heard by Mr. Justice Kay, and the decision was in favor of the Hunslt Bating Company. The court held that the value of the premises should be determined on the basis of the value of the machinery, and not on the basis of the value of the premises themselves.

The main contention put forward on behalf of the Hunslt Bating Company was that the value of the premises should be determined on the basis of the value of the machinery, and not on the basis of the value of the premises themselves. The court held that this was the correct principle to follow, and that the value of the premises should be determined on the basis of the value of the machinery.

The court also held that the value of the machinery should be determined on the basis of the value of the premises, and not on the basis of the value of the machinery itself. This decision was a victory for the Hunslt Bating Company, and it is now the policy of the Committee to uphold this principle in all future valuations.

On Wednesday, evening last, the final round in the billiard hands for a clock and a half was played at the Hunslt Bating Company. The match was between Mr. B. P. Newcome, one of the vice presidents, and Mr. W. T. Taylor, one of the players. The match was a close one, and it was not until the final frame that the result was decided.

The match was played at the Hunslt Bating Company, and it was a very interesting one. The players were both of high class, and the match was a very close one. The final frame was a very close one, and it was not until the final stroke that the result was decided.

Lord Esher, namely that things which were on the premises in order to make them fit for a particular purpose ought to be taken into account in ascertaining the value of the premises. It came to the conclusion that Mr. Aikin's statement had been made in the presence of the machinery as an element which would lead the tenant to pay more for the premises. The Recorder was quite right, that the objections taken to his findings, and that the respondents were entitled to succeed.

OLTON AND WOODLESFORD PARISH COUNCIL.

A special meeting of the above was held on Tuesday night, being present Messrs W. Poole (chairman), Higginson, James, Cartwright, Sharpe, and Mitchell, with the clerk (Mr. Aikin). The Clerk submitted a statement regarding the value of the premises, and the committee decided to uphold the principle of valuing the premises on the basis of the value of the machinery.

The committee also decided to uphold the principle of valuing the machinery on the basis of the value of the premises. This decision was a victory for the Hunslt Bating Company, and it is now the policy of the Committee to uphold this principle in all future valuations.

LOCAL SCHOLARSHIP WINNER.

We are pleased to note that Christopher J. Barker, of Oulton Lane, Bothwell, has been successful in gaining a scholarship to the Yorkshire University, value £50, which carries the privilege of a two years' college tuition. Mr. Barker has undertaken his chosen civil engineering as his profession.

BUCCOES OF A LOCAL ATHLETIC.

At the seventh annual picnic in connection with the Alton Bywater Infirmary Committee held on Saturday, E. Baker, of Bothwell, secured 150, which was the highest score. From the scratch he won by half a length in 15 minutes 10 seconds, defeating Ralph, Alton, 25 yards, and Hooton, Kipper, 55, and Spencer, Leeds, 50.

AN ATHLETE'S PREOCCUPATION.

SOBOPLA FROM INFECTED RUBINO GLYVES-ZAM-BUK. The danger of catching this disease, and the severe illness it is liable to be found with, is well known to all. The disease, which is called Zam-Buk, is a very serious one, and is caused by a germ which is found in the blood. It is a very serious one, and is caused by a germ which is found in the blood.

THE FIRST WEDDING AT BOBIN HOOD FREE CHURCH.

Wednesday last was an important day in the history of Robin Hood. Previous to Wednesday candidates for the marriage state had to journey out of the village to plough the field, as the only chapel in the village (the United Free Church) was not registered for the solemnization of marriages.

For the week the chapel has been licensed. The Rev. W. H. Stockley and Mr. Chambers have been appointed by the Registrar General to perform marriages in the chapel. The ceremony was performed by the Rev. W. H. Stockley, resident minister. The bride was given away by her father, Misses O. Stainer and Rhoda Harley were bridesmaids and Mr. J. H. Stainer acted as best man. At the conclusion of the ceremony Mr. Joseph Chambers (whose father along with Mr. D. Harley was one of the founders of the church and up to the time of his death, a trustee) in a few well chosen words made a presentation to the newly married couple of the bride and groom on behalf of the trustees and members, as a memento of the first wedding solemnized in the chapel. He said that he had great pleasure in performing such a pleasing duty, especially as the bride's father had been connected with the church for so long a time, and as a trustee, member and clerk. Mr. Joseph Harley played suitable selection on the organ. After the ceremony the guests were entertained to tea at the house of the bride's parents. The happy couple who are spending their honeymoon at E. Wood, were the recipients of numerous presents.

NOTHWEEL SALVATION ARMY.

Last week the Northwell Salvation Army had a visit from Aged and Mrs. M. J. Wood, late of South Africa, the occasion being made special by the holding of well attended meetings on Sunday in the Victoria Hall. In the afternoon Aged, Mayers gave a very interesting lecture on the subject "How kept up the flag at Kimberley and Mafeking during the war." Dr. Beck presided. The Organ and Mrs. Elliott's solo were well received. The Junior Band played during the day and collections were taken towards core expenses.

CYCLING.

THE ANTI-SLIP TRIALS.

The Anti-slip trials promoted by the C.T.C. and which have for their object the discovery of a means whereby the difficulty to which the ordinary bicycle is subject, may be prevented, will commence this afternoon at the Oulton Garage, Sydney Street, Chelsea, where a treacherous surface composed of Thames mud and oil will be laid down for the purpose. The first test will probably consist of riding and manœuvring upon this specially prepared surface, but it is the desire of the committee that the trials should be made as useful as possible, and that the riders should be able to estimate the amount of resistance (if any) due to the use of the device, will then be estimated. A test for endurance may also be determined. As the C.T.C. has set aside £400 for the purpose of carrying out these experiments, and providing the winners with substantial prizes, it is to be hoped that success may attend their efforts.

EAST AND WEST YORKSHIRE UNION RAILWAYS.

The official table returns for the above railway for the week ending June 3rd, 1905, is £215 against £280 for the corresponding period last year, a decrease of £65. For the 22 weeks ended June 3rd, the returns is £2877, the amount during the corresponding period last year was £2974, thus showing a decrease of £419.

It is better to send for our Illustrated Catalogue first, than to convey in any adequate degree the largeness of our stock, but it is an exceedingly useful guide. We have had fifty years' experience of the furniture trade, and our knowledge, experience, advice, and suggestions are freely at the service of our friends, and there is surely satisfaction in dealing with a firm whose name is a synonym for integrity. Whatever we say we do, you can always depend upon our doing.**

**EDITOR'S LETTER BOX.**  
It was a long and interesting report you had  
last week. Mr. Editor, of the Rothwell Times,  
concerning the report of the subject  
being under consideration. For instance it is a  
question of vital consequence the watering of  
the highways along which the Walsford turn-  
pikes pass, for as Mr. John Armstrong remarked  
it is hardly fit to live on the roads under  
present conditions. Everybody I think will  
admit that with no water the roads would be  
able to effectively deal with the summer, but  
the price given to the Council meeting of  
£17 per acre per annum is certainly prohibi-  
tive. The Town Council I think should be  
able to do the watering at a profit if it is less  
figure, and should be satisfied with a reason-  
able remuneration; the watering of the roads  
would be a boon to the travelling public, to  
the Turnpike proprietors if it were not, and  
proper consideration be exercised on either side  
there is no reason why the fact of the matter  
should not be put to rest at once.

The discussion on the Taster compensation  
claim for damaged crops of turnips, was the  
result of an outbreak of small pox was also  
of much interest. Taken together I think  
the two subjects would have made a very in-  
teresting feature of the evening. Our Councillors  
are custodians of the ratepayers' cash and  
therefore it is their duty to see that the  
ratepayers' money is not wasted. It is their  
duty to see that the ratepayers' money is not  
wasted. It is their duty to see that the  
ratepayers' money is not wasted.

It is a pity that the ratepayers' money is

**THE CHARACTER OF THE STONE**

used by the contractor, Mr. Lynch.  
The Surveyor: No, it is exactly the same.  
Mr. Abbot: I thought they were paying a  
fair price at 1s 6d for the stone, but the  
stone at this figure and the same being used  
for the work looks a lot of hammer shanks.  
Mr. Lynch: I paid 1s 6d per ton but the men  
found their own tools; if, however, the Council  
thought they should give a little more for  
the work they would be better off.

**THE MINUTES**

The Chairman said he, too, was quite  
prepared to pay Michael Lynch's price on  
Michael Lynch's terms.  
It was eventually agreed to pay 1s 6d per  
ton for the stone to be used for hammer shanks  
where necessary.  
The minutes were approved with this altera-  
tion.

**THE MINUTES**

A list of accounts was passed for payment  
on the recommendation of the Finance Com-  
mittee, included in the payments being £605  
to Messrs Arnold & Sons on account of the  
Rothwell sewage scheme, and £250 to the  
Rothwell.

**THE MINUTES**

Mr. Chadwick, in proposing the minutes for  
confirmation, said they found the accounts  
were generally correct and were likely to  
increase. If the rate was to be kept at the  
present figure they would have to exercise  
great care for the next year, but the two  
large payments but they would come out of  
the last account for the Rothwell sewage  
scheme. He would move that the minutes be  
confirmed along with Mr. Gordon and he had  
satisfied that more work had been done than  
was represented by the payments to be made.  
Mr. Gordon seconded the motion, which was  
carried.

HINTS FOR THE HOME

Examine pan with a glass surface should not be subjected to a great heat in the oven, for it is apt to crack the glazing.

When the hand or toilet glass has a mirrored appearance, it should be rubbed with methylated spirits, and it will become perfectly clear and bright again. The spirit takes away all grease, and dries very quickly.

A most refreshing thing in the morning is to bat a few drops of liniment on the face. This keeps the skin fresh and in good condition. Ointment is also very beneficial. A warm bath with some hot liniment sprinkled in it will be found most soothing.

THE LANGUAGE OF BABYHOOD.

Crying is the universal language of the baby, and the only means that babies have by which to express their feelings. A cry of pain, and a cry of anger, are the first cries of the infant. The cry of pain is usually a wailing cry, and the cry of anger is usually a screaming cry. The cry of pain is usually a wailing cry, and the cry of anger is usually a screaming cry.

DON'T MENTION RAIN.

To mention rain in public conversation, when talking with a companion of persons who are absent, is an ill-considered as well as an ill-timed proceeding. The conversation of persons who are absent, is an ill-considered as well as an ill-timed proceeding. The conversation of persons who are absent, is an ill-considered as well as an ill-timed proceeding.

SANDWICH FILLINGS.

Hard-boiled eggs, sliced and mixed with oil and vinegar, and a little salt, make a very good filling for sandwiches. Other fillings that are good are: Cold boiled green peas, macaroni, and mixed with a little salad dressing.

BOT WEATHER POOL.

In summer months an abundant supply of fruit and vegetables can be raised in a small garden. It is not necessary to have a large garden to grow fruit and vegetables. A small garden will do just as well.

WHITE SPOTS ON WOOD.

White spots on wood are caused by a fungus which grows on the surface of the wood. It is not necessary to have a large garden to grow fruit and vegetables. A small garden will do just as well.

HURRY AND WORRY.

It is impossible to be in a hurry and not be in a hurry. It is impossible to be in a hurry and not be in a hurry. It is impossible to be in a hurry and not be in a hurry.

TO REMOVE CARRIES.

Carries are small insects which are found in the hair. They are not dangerous, but they are very annoying. They can be removed by using a comb and a little oil.

INSOMNIA.

Insomnia is a condition in which a person is unable to sleep. It is not a disease, but a symptom of a disease. It can be caused by many things, such as stress, anxiety, and a change in routine.

NICE DINNER.

A nice dinner can be made with a few simple ingredients. It is not necessary to have a large garden to grow fruit and vegetables. A small garden will do just as well.
